

EDUARDO ALMAZAN GALISTEO

Data-driven professional with 7+ years of experience in advanced analytics, machine learning, and product data strategy. Proven track record of driving business growth, optimizing decision-making, and implementing scalable data solutions across startups, consulting, and research projects.

EDUCATION

MASTER'S IN BUSINESS CONSULTING

ICADE, Madrid ES

Thesis: Impact of the Implementation of New Default

MASTER'S IN TELECOMMUNICATION ENGINEERING

University of Zaragoza, Zaragoza ES
Brno University of Technology, Brno CZ

Thesis: Automatic description of video for resume generation (Computer Vision + NLP)

BACHELOR'S DEGREE IN TELECOMMUNICATION ENGINEERING

University of Zaragoza, Zaragoza ES
Linköping University, Linköping SE

Thesis: Capacity evaluation of MIMO line-of-sight multi-antenna communications

COMPLEMENTARY EDUCATION

- Professional Scrum Master I (PSM I)
- Social Psychology (Wesleyan University)
- Google Cloud Data Engineering (Google)
- AWS Machine Learning and Computer Vision
- Computer Vision with Keras and TensorFlow
- Driver's License

LANGUAGES

SPANISH
NATIVE

ENGLISH
FULL PROFESSIONAL PROFICIENCY

WORK EXPERIENCE

PRODUCT DATA ANALYST - Job&Talent, ES

Jan 2022 - Present

Led data-driven initiatives across product teams to improve decision-making, experimentation, and analytics adoption company-wide:

- Increased organic leads by 700% through behavioral analytics, predictive models, and A/B testing.
- Introduced self-service analytics tools, cutting data request times by 40%.
- Built and implemented an event-tracking strategy, enhancing data quality across teams.
- Defined key OKRs for 2023-2024 using NLP, clustering, and forecasting models.
- Developed optimized data warehouse and datamarts, significantly reducing operational costs.

Tech Stack: Python, SQL (Redshift, BigQuery), dbt, Apache Airflow, Superset, Metabase, Looker, Amplitude, Google Analytics, A/B Testing, Machine Learning.

SENIOR DATA CONSULTANT - Management Solutions, ES

Dec 2018 - Jan 2022

Delivered strategic analytics solutions for top-tier banking clients, focusing on network optimization, automation, and stakeholder enablement.

- Managed the successful rollout of an analytics tool across 7 countries, optimizing physical branch network operations.
- Conducted predictive analyses used to strategically open or close branches (2019-2022).
- Automated data quality processes, reducing data update times from weeks to days.
- Trained stakeholders, cutting analyst dependence by 80% and enhancing decision speed.

Tech Stack: SQL, SAS, Python, ArcGIS, GIS, Tableau, Data Studio, Agile

RESEARCH COLLABORATOR - ViVoLab Group I3A, ES

Feb 2018 - Oct 2018

Contributed to cutting-edge research in deep learning and NLP for audio and video processing within an academic and media innovation context.

- Built advanced NLP and computer vision model for automated video summarization.
- Established data-quality processes, resulting in top-tier audio segmentation models.

Tech Stack: Python (Keras, PyTorch), Neural Networks (BiLSTM, CNN), NLP (Embeddings, LDA)

SKILLS

Technical Skills

- **Programming & Data Analysis:** Python (Jupyter, Pandas, Scikit-learn, Plotly, Matplotlib, Seaborn, Keras, PyTorch), Matlab.
- **Data Engineering & Processing:** SQL (Redshift, Snowflake, BigQuery, MySQL, SAS), dbt, Apache Airflow.
- **ML, AI & LLMs:** Regression, classification, forecasting, sentiment analysis, text classification, deep learning (CNN, LSTM), transformers, LLMs (OpenAI, Claude), LangChain, CrewAI.
- **Cloud:** AWS, Google Cloud Platform.
- **Data Visualization:** Superset, Metabase, Looker, Looker Studio, Streamlit, Tableau.
- **Product Analytics: A/B Testing,** Amplitude, Google Analytics, Firebase.
- **Geospatial Analytics:** GIS, ArcGIS, GeoPandas, Arcpy.
- **Development Workflow:** Git, Agile (Scrum, Kanban), Notion, Miro, Jira...

Soft Skills

- Critical Thinking, Storytelling, Problem-Solving, Teamwork, Fast Learner
